

On the other hand, the fact that the number of people who have been killed in the past few years is much smaller than in the past is a very good sign.

5 a) selecting a substrate which is
substantially devoid of fusible polymers;

10 c) printing said ink onto said substrate
from said ink-jet printer to obtain a heat transferable
transfer.

15 3. The process of claim 1, wherein said ink-
jet printer is a color ink-jet printer.

5. The process of claim 1 wherein said
20 fusible polymer comprises a thermoplastic polymer.

7. The process of claim 1 wherein said substrate is coated with a release coating.

25 8. The process of claim 7 wherein said
release coating comprises a coating containing a release

5 a) providing a computer-readable file
corresponding to said design;

10 c) printing said design by said ink-jet
printer onto a substrate substantially free of fusible
polymers to form a transfer;

15 e) applying sufficient heat and pressure to
cause said design to be transferred from said transfer
to said article.

20 and feel in areas of said article surrounding said
transfer which are the same as the hand and feel of said
article prior to applying said transfer.

25 12. The process of claim 9 wherein said
fusible polymer comprises a thermoplastic polymer.

13. / The process of claim 9 wherein said fusible polymer comprises a thermosettable polymer.

15. The process of claim 9 wherein said release coating comprises a coating containing a release agent selected from the group consisting of wax, silicone resin, and mixtures thereof.
